The Purpose of the Stakeholder Involvement Council

The Exchange Stakeholder Involvement Council will provide input and feedback to the Commissioner of Securities and Insurance (CSI) as Montana takes initial steps to plan for a Health Insurance Exchange intended to provide individuals and small businesses opportunities for more accessible and affordable care. The CSI will provide information on the development of the Exchange Grant Planning process, invite discussion and gather input from participants on these developments, solicit feedback on policy questions related to the Exchange, and consider issues of interest and concern as planning year continues through September 2011. All meetings are called by the Commissioner, are open to the public and will accept public comment.
